

The Google Earth Website is very helpful in finding grave locations
Google Earth is a free download at <http://earth.google.com/>

To see an areal photo of any grave location that I have provided GPS location for
Click on the Fly To tab as shown below

Type in the Latitude first followed by a comma then space followed by - then the longitude
The example shown below takes you to Thomas Bolen's grave site

If you click on the Directions tab you can get driving directions to a location
You can use either street addresses or GPS locations to get these directions
